

ABSTRACT OF THE DISCLOSURE

A method of and apparatus for storage and retrieval of resumé images in a manner which preserves the appearance, organization, and information content of the original document. In addition, summaries or "outlines" of resumé images, broken down into multiple fields, are stored, and can be searched field by field. A user interface is provided which is based on a familiar paper-based method already in common use, thus reducing the training required to effectively use the system.
